

# ASSOCIATE OF SCIENCE IN HEALTH SCIENCE

## Description and Outcomes

If you have received military training for medical and health science occupational specialties and want to earn an associate's degree and then continue your studies to earn a bachelor's degree, the Associate of Science in Health Science is a military-friendly path that can help you reach your educational and career goals.

Your prior military training is applied as credit for prior learning toward degree requirements. Combined with required general education courses that broaden your knowledge and skills, and health science courses that build upon your military training, the Associate of Science in Health Science can help put you in the best position to continue on to bachelor's-level health science programs and later graduate professional programs such as physician assistant, physical therapist, medical doctor, etc.

The program includes a capstone experience designed to integrate the academic work completed as part of the program with your prior military training and experience. Earning your Associate of Science in Health Science could help you meet educational requirements for advancement in the military, prepare you to pursue entry-level careers in allied health science should you return to civilian life, and provide you with a solid foundation for pursuing your bachelor's degree and beyond.

Refer to the Admissions Requirements (p. 1) section for details on program eligibility.

## Concentration

In addition to the required core and major courses, you can further specialize your degree by choosing a preprofessional concentration that could prepare you to fulfill requirements for professional programs.

## Program Length

The Associate of Science in Health Science program consists of a minimum of 90 quarter credit hours. Upon successful completion of the program, you will be awarded an associate of science degree.

## Program Outcomes

### Discipline-Specific Outcomes

1. Integrate knowledge from behavioral and biological sciences as a basis for allied health practice.
2. Use current technology in a variety of health care roles.
3. Demonstrate competencies relevant to a career focus area within health sciences.
4. Exhibit administration skills and management processes within the interdisciplinary health care field.
5. Exhibit behavior consistent with the professional, ethical, and legal standards of allied health practice.
6. Demonstrate integration of discipline-specific and general education competencies.
7. Demonstrate sufficient academic acumen to go on to pursue a bachelor's program upon graduation from the program.

## General Education Literacies and Professional Competencies

In addition to the discipline-specific outcomes, general education literacies and professional competencies are integrated throughout your academic program. You can review the general education literacies and professional competencies associated with your academic program in the General Education and Professional Competency Requirements (<https://catalog.purdueglobal.edu/undergraduate/general-education-professional-competency-requirements/>) section of this Catalog.

## Program Availability

For program availability, please refer to the U.S. State and Other Approvals (<https://catalog.purdueglobal.edu/policy-information/university-information/accreditation-approvals-memberships/>) section and Program Availability Information (<https://www.purdueglobal.edu/catalog-program-availability-info.pdf>).

## Policies

### Admissions Requirements

You must meet the following admission requirement in addition to the Purdue Global general requirements (<https://catalog.purdueglobal.edu/policy-information/admissions/>).

Enrollment in the Associate of Science in Health Science is limited to active-duty servicemembers of the U.S. military, members of the Reserve or National Guard, and veterans of the U.S. military who have completed one of the articulated military occupation training courses. A list of currently articulated occupations can be obtained by contacting Purdue Global Military Admissions.

## Certification, State Board, and National Board Exams

Certification and licensure boards have state-specific educational requirements for programs that lead to a license or certification that is a precondition for employment. Prospective and current students must review Purdue Global's State Licensure and Certifications (<https://www.purdueglobal.edu/about/accreditation/licensure-state-authorizations/>) site to view program and state-specific licensure information.

Licensure-track programs may limit enrollment to students in certain states; please see Purdue Global's Program Availability Information (<https://www.purdueglobal.edu/catalog-program-availability-info.pdf>) to determine enrollment eligibility.

You are responsible for understanding the requirements of optional certification exams. Such requirements may change during the course of your program. You are not automatically certified in any way upon program completion. Although certain programs are designed to prepare you to take various optional certification exams, Purdue Global cannot guarantee you will be eligible to take these exams or become certified. Your eligibility may depend on your work experience, completion of education and/or degree requirements, not having a criminal record, and meeting other certification requirements.

## Degree Plans

The  icon appears in the title of traditional courses that are also available as a set of module courses. Module course availability may be limited to certain academic calendars. See Course Types (<https://catalog.purdueglobal.edu/policy-information/university-information/approach-to-learning/>) for information about module courses.

## Program Requirements

Code	Title	Credits
<b>Core Requirements</b>		
CM107	 College Composition I	5
CM220	 College Composition II	5
CS212	 Communicating Professionalism	5
100/200 Level	Mathematics Requirement <sup>1</sup>	5
100/200 Level	Arts and Humanities Requirement <sup>1</sup>	5
100/200 Level	Science Requirement <sup>1</sup>	5
100/200 Level	Social Science Requirement <sup>1</sup>	5
100/200 Level	General Education Electives	10
Total Core Requirements		45
<b>Major Requirements</b>		
HS290	Associate's Capstone in Health Science	5
Major Electives (see below) <sup>2</sup>		20
Total Major Requirements		25
<b>Open Elective Requirements</b>		
Open Electives <sup>2</sup>		20
Total Open Elective Requirements		20
<b>TOTAL CREDITS</b>		<b>90</b>

<sup>1</sup> For options to fulfill this requirement, see the corresponding literacy in General Education and Professional Competency Requirements (<https://catalog.purdueglobal.edu/undergraduate/general-education-professional-competency-requirements/>).

<sup>2</sup> Students in the Preprofessional concentration area will complete 22 credits of Major Electives and 18 credits of Open Electives.

SC335	Biochemistry	
SC415	Environmental Health	
SC435	 Genetics	
<b>TOTAL CREDITS</b>		<b>22</b>

## Concentration Requirements

Concentration courses are completed within the major electives requirement of the degree plan.

Students in this program are not required to select a concentration.

### Preprofessional

Code	Title	Credits
Select two of the following:		10
CM206	Interpersonal Communication	
MM207	 Statistics	
PS124	 Introduction to Psychology	
SC115	Principles of Nutrition	
SC121	Human Anatomy and Physiology I	
SC131	Human Anatomy and Physiology II	
SC180	General Chemistry I	
SC190	General Chemistry II	
SS144	Sociology	
Select two of the following:		12
HS305	Research Methods for Health Sciences	
HS315	 Practices in Public Health	
HS340	Epidemiology	
HW310	Complementary and Integrative Medicine	
SC320	Microbiology for Health Professions
